2023-2025

LaSalle University
Software Engineering (Bachelor's Degree)
2025 - 2029

Languages

Portuguese Native

English **B2** Intermediate

Projects

2026 **ImobiFlow**
Real estate web system with an administrative panel, secure authentication via Supabase, and complete property registration and management. The application includes a responsive public interface, search filters, a favorites area, and database integration.

2025 **MovieTV**
Mobile app built with React Native (Expo) that lets users explore movies, receive AI-powered recommendations, and save favorites. It uses the TMDB API for movie data, Appwrite as the backend, and OpenRouter AI for smart search.

2024 **Bookstore System**
Development of a Java system with Spring Boot and MySQL. Used Maven for dependencies, and HTML, CSS, and JavaScript for the front-end
