EXPERIENCE

Programming Intern · Full Stack Development

Jul 2025 – Present

Segure Segurança do Trabalho · Canoas, Brazil

- → Build and maintain business web systems with PHP (CodeIgniter), React, JavaScript, Bootstrap, and MySQL.
- → Deliver frontend interfaces, backend features, SQL queries, and updates to existing applications.
- → Investigate technical issues, fix bugs, and manage changes using Git.

IT Resident · Full Stack Developer

Jul 2025 – Jan 2026

Fulbra / Softex · TIC 55 Technology Residency, Brazil

- → Completed a paid technology residency delivering software for a real-world business challenge.
- → Built WhatsApp Business automation using WAHA, n8n, Docker, PostgreSQL, Python, and AI integrations.
- → Developed a React and TypeScript dashboard to monitor messages, operations, and workflows.
- → Validated the automated solution with a real client.

Freelance Web Developer

Aug 2024 – 2026

Eff Sites · Porto Alegre, Brazil (Remote)

- → Developed and maintained responsive websites, landing pages, and client-facing WordPress solutions.
- → Customized interfaces using HTML, CSS, and JavaScript, and resolved production issues.
- → Improved usability, responsiveness, and on-page SEO according to client needs.

TECHNOLOGY FOCUS

Frontend: React · TypeScript · Next.js · Tailwind CSS **Backend:** PHP · CodeIgniter · Node.js · REST APIs
Data & automation: PostgreSQL · MySQL · Supabase · Docker · n8n · WAHA

SELECTED PROJECTS

AnáliseAI

WhatsApp automation · AI · Full stack

- → Developed an AI-powered WhatsApp Business automation and analytics system for a real client during TIC 55.
- → Integrated WAHA, n8n, Python, PostgreSQL, Docker, and AI APIs with a React/TypeScript dashboard.

ImobiFlow

Multi-tenant SaaS · Web

- → Built a real estate SaaS platform with property management, authentication, and company-specific operations.
- → Used React, TypeScript, Tailwind CSS, Supabase, and PostgreSQL to build a responsive data-driven interface.

MovieTV

Mobile · API integration

- → Created a movie discovery mobile app with React Native, Expo, and TypeScript.
- → Integrated TMDB, Appwrite, and OpenRouter AI for movie data, favorites, and intelligent recommendations.

CORE STRENGTHS

React / TypeScript · PHP / CodeIgniter · JavaScript / Next.js · MySQL / PostgreSQL · Docker / n8n · REST APIs / Git

EDUCATION

B.S. in Software Engineering
La Salle University
Aug 2025 – Expected 2029
